

WPERC Irrigation Engine Rebate Program Rules

I. Participation and Limits

The purchase of any equipment described herein does not automatically guarantee rebates and not all applicants will qualify. Propane companies and their employees are not eligible to receive incentives.

Funding is limited and not all applications may be able to receive rebates.

Participants must apply for rebates through their propane marketer or dealer and be in good standing with their marketer or dealer. Each participant making application is limited to five (5) rebates per year.

The rebate is only available on new EPA and/or CARB certified models, which meet the criteria for inclusion in the chart of Section II below. The completed application must be submitted within 30 days of the engine installation date to qualify. Prior purchases of new engines over 30 days old will not qualify, although the WPERC may consider engines purchased and installed prior to the start of this grant period. The WPERC may deny an application or request for rebate for any reason, even if all eligibility requirements have been met. Funding is limited and not all applications may be able to receive rebates.

This program is to encourage additional companies to use propane irrigation engines to broaden the benefits to the state.

II. Qualifying Irrigation Engines

The following is a list of manufacturers and models of the types of equipment currently eligible for the PERC farm program. Please note, there may be additional models of propane-fueled engines that meet the program's eligibility requirements that will be added to the below list at a later date. When purchased new, in EPA and/or CARB certified models, these engines meet the criteria for inclusion in the Propane Farm Incentive Program and those incentives can be coupled with the WPERC rebate funds. Other EPA and/or CARB certified new engines that are not listed below may also be eligible. Contact the WPERC with questions.

Manufacturer	Engine Model		Manufacturer	Engine Model
EDI	1.6-liter Ford engine		Origin	8.0-liter Origin engine
EDI	2.3-liter Ford engine		PSI	8.1-liter PSI engine
PSI	3.0-liter GM engine		PSI	8.8-liter PSI engine
EDI	3.7-liter Ford engine		SRC	8.8-liter SRC engine
PSI	4.3-liter GM engine		Origin	9.1-liter Origin engine
SRC	4.3-liter SRC Engine		Origin	10.3-liter Origin engine
PSI	5.7-liter GM engine		PSI	11.1-liter PSI engine
Buck's	5.7-liter GM engine		PSI	14.6-liter PSI engine
SRC	5.7-liter SRC engine		PSI	18.3-liter PSI engine
KEM	5.7-liter GM engine		PSI	21.9-liter PSI engine
EDI	6.8-liter Ford engine		CCAT	Dual-fuel system
Don Hardy	7.4-liter GM engine			

III. Incentive Amounts

The WPERC rebate will be awarded per engine shown above up to a maximum of \$1,000.00 per engine approved.

IV. Applications

- The participant shall agree to follow the equipment manufacturer's recommendations for maintenance of propane engine and conversion equipment.
- The participant shall agree that the equipment for which a rebate is provided must remain in use for at least one year in the State of California.
- Installation of the engines and on-site refueling must only be performed by persons who are in compliance with state regulations.
- The completed WPERC application must be submitted within 30 days of the engine installation date. Incomplete applications will not be processed. The applications should include the following:
 - Completed application for each propane irrigation engine
 - Proof of purchase and installation

V. Rules and Regulations

The rebate program begins January 1, 2017 and ends December 31, 2017 or when program funds are exhausted. Rebates available through the WPERC are subject to available funds.

Applicants will be notified of the status of their applications within 60 days after the application is received at the WPERC office. No applicant has a legal right or other entitlement to receive funding under the program or this agreement. A completed application does not bind the WPERC to approve or pay a rebate to any applicant.

An applicant or propane marketer may be suspended from or declared ineligible to participate in the program if the WPERC determines that the applicant or propane marketer has submitted false information or otherwise violated program terms and conditions. Within 30 days after the WPERC suspects or declares an applicant or propane marketer ineligible, the applicant or propane marketer may appeal the action by submitting the appeal in writing to the WPERC. Actions taken by the WPERC with respect to the appeal will be final.
