

Propane Day at the State Capitol

Join propane industry members from across California on March 26th for a special advocacy day in Sacramento! Meet legislators and staff members and share information about your business and the importance of the propane industry in California.

Never done anything like this before? Don't worry -- you're not alone! WPGA staff will arrange legislative meetings, provide briefing materials and meeting handouts, and host pre-Propane Day webinar to prepare legislative attendees. During Propane Day, WPGA staff and representatives will be available to assist during meetings.
